ASSEMBLY, No. 493

STATE OF NEW JERSEY

220th LEGISLATURE

PRE-FILED FOR INTRODUCTION IN THE 2022 SESSION

Sponsored by:

Assemblywoman CAROL A. MURPHY

District 7 (Burlington)

Assemblyman DANIEL R. BENSON

District 14 (Mercer and Middlesex)

Assemblyman CLINTON CALABRESE

District 36 (Bergen and Passaic)

Co-Sponsored by:

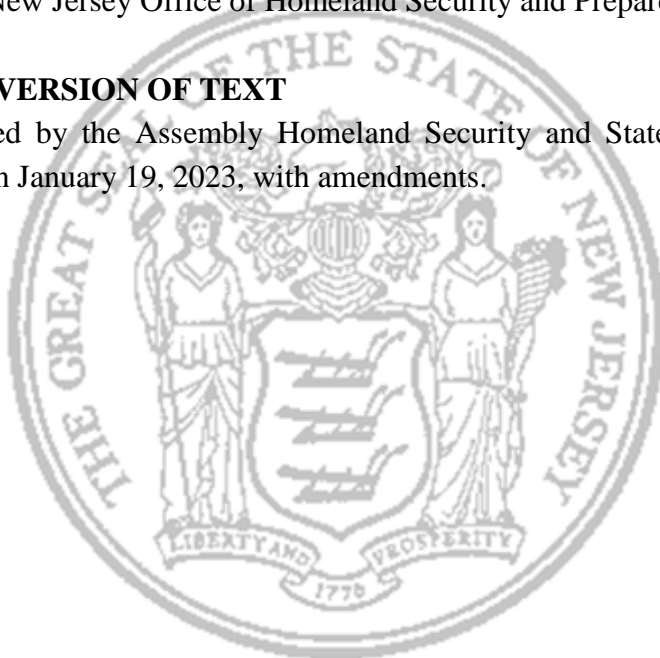

Assemblywoman Quijano, Assemblyman Tully and Assemblywoman Mosquera

SYNOPSIS

Requires public agencies and government contractors to report cybersecurity incidents to New Jersey Office of Homeland Security and Preparedness.

CURRENT VERSION OF TEXT

As reported by the Assembly Homeland Security and State Preparedness Committee on January 19, 2023, with amendments.

(Sponsorship Updated As Of: 1/26/2023)

1 AN ACT requiring public agencies ¹and government contractors¹ to
 2 report cybersecurity incidents to the New Jersey Office of
 3 Homeland Security and Preparedness and supplementing Title 52
 4 of the New Jersey Statutes.

5
 6 **BE IT ENACTED** *by the Senate and General Assembly of the State*
 7 *of New Jersey:*

8
 9 ¹**[**1. As used in this act, P.L. , c. (C.)(pending
 10 before the Legislature as this bill):

11 a. “Public agency” means any public agency of the State or any
 12 political subdivision thereof.

13 b. “Government contractor” means an individual or entity that
 14 performs work for or on behalf of a public sector institution on a
 15 contract basis with access to or hosting of the public agency’s
 16 network, systems, applications, or information.

17 c. “Cybersecurity incident” means a malicious or suspicious
 18 event occurring on or conducted through a computer network that
 19 jeopardizes the integrity, confidentiality, or availability of an
 20 information system or the information the system processes, stores,
 21 or transmits.

22 d. “Cyber threat indicator” means information that is necessary
 23 to describe or identify:

24 (1) malicious reconnaissance, including, but not limited to,
 25 anomalous patterns of communication that appear to be transmitted
 26 for the purpose of gathering technical information related to a
 27 cybersecurity threat or vulnerability;

28 (2) a method of defeating a security control or exploitation of a
 29 security vulnerability;

30 (3) a security vulnerability, including, but not limited to,
 31 anomalous activity that appears to indicate the existence of a
 32 security vulnerability;

33 (4) a method of causing a user with legitimate access to an
 34 information system or information that is stored on, processed by,
 35 or transiting an information system to unwittingly enable the defeat
 36 of a security control or exploitation of a security vulnerability;

37 (5) malicious cyber command and control;

38 (6) the actual or potential harm caused by an incident, including
 39 but not limited to, a description of the data exfiltrated as a result of
 40 a particular cyber threat; and

41 (7) any other attribute of a cyber threat, if disclosure of such
 42 attribute is not otherwise prohibited by law.

43 e. “Defensive measure” means an action, device, procedure,
 44 signature, technique, or other measure applied to an information
 45 system or information that is stored on, processed by, or transiting

EXPLANATION – Matter enclosed in bold-faced brackets **[thus]** in the above bill is
 not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

Matter enclosed in superscript numerals has been adopted as follows:

¹Assembly AHS committee amendments adopted January 19, 2023.

1 an information system that detects, prevents, or mitigates a known
2 or suspected cyber threat or security vulnerability, but does not
3 include a measure that destroys, renders unusable, provides
4 unauthorized access to, or substantially harms an information
5 system or information stored on, processed by, or transiting such
6 information system not owned by the entity operating the measure,
7 or another entity that is authorized to provide consent and has
8 provided consent to that private entity for operation of such
9 measure.

10 f. “Information resource” means information and related
11 resources, such as personnel, equipment, funds, and information
12 technology.

13 g. “Information system” means a discrete set of information
14 resources organized for the collection, processing, maintenance,
15 use, sharing, dissemination, or disposition of information.

16 h. “Information technology” means any equipment or
17 interconnected system or subsystem of equipment that is used in
18 automatic acquisition, storage, manipulation, management,
19 movement, control, display, switching, interchange, transmission,
20 or reception of data or information used by a public sector
21 institution or a government contractor under contract with a public
22 sector institution which requires the use of such equipment or
23 requires the use, to a significant extent, of such equipment in the
24 performance of a service or the furnishing of a product.

25 The term information technology includes, but is not limited to,
26 computers, ancillary equipment, software, firmware, and similar
27 procedures, services, including support services, and related
28 resources.

29 i. “Private entity” means any individual, corporation,
30 company, partnership, firm, association, or other entity, but does
31 not include a public agency as defined in this act, or a foreign
32 government, or any component thereof. **1**¹

33
34 ¹1. As used in this act, P.L. , c. (C.)(pending before
35 the Legislature as this bill):

36 “Cybersecurity incident” means a malicious or suspicious event
37 occurring on or conducted through a computer network that
38 jeopardizes the integrity, confidentiality, or availability of an
39 information system or the information the system processes, stores,
40 or transmits.

41 “Cyber threat indicator” means information that is necessary to
42 describe or identify:

43 (1) malicious reconnaissance, including, but not limited to,
44 anomalous patterns of communication that appear to be transmitted
45 for the purpose of gathering technical information related to a
46 cybersecurity threat or vulnerability;

47 (2) a method of defeating a security control or exploitation of a
48 security vulnerability;

1 (3) a security vulnerability, including, but not limited to,
2 anomalous activity that appears to indicate the existence of a
3 security vulnerability;

4 (4) a method of causing a user with legitimate access to an
5 information system or information that is stored on, processed by,
6 or transiting an information system to unwittingly enable the defeat
7 of a security control or exploitation of a security vulnerability;

8 (5) malicious cyber command and control;

9 (6) the actual or potential harm caused by an incident, including
10 but not limited to, a description of the data exfiltrated as a result of
11 a particular cyber threat; and

12 (7) any other attribute of a cyber threat, if disclosure of such
13 attribute is not otherwise prohibited by law.

14 “Defensive measure” means an action, device, procedure,
15 signature, technique, or other measure applied to an information
16 system or information that is stored on, processed by, or transiting
17 an information system that detects, prevents, or mitigates a known
18 or suspected cyber threat or security vulnerability, but does not
19 include a measure that destroys, renders unusable, provides
20 unauthorized access to, or substantially harms an information
21 system or information stored on, processed by, or transiting such
22 information system not owned by the entity operating the measure,
23 or another entity that is authorized to provide consent and has
24 provided consent to that private entity for operation of such
25 measure.

26 “Government contractor” means an individual or entity that
27 performs work for or on behalf of a public agency on a contract
28 basis with access to or hosting of the public agency’s network,
29 systems, applications, or information.

30 “Information resource” means information and related resources,
31 such as personnel, equipment, funds, and information technology.

32 “Information system” means a discrete set of information
33 resources organized for the collection, processing, maintenance,
34 use, sharing, dissemination, or disposition of information.

35 “Information technology” means any equipment or
36 interconnected system or subsystem of equipment that is used in
37 automatic acquisition, storage, manipulation, management,
38 movement, control, display, switching, interchange, transmission,
39 or reception of data or information used by a public agency or a
40 government contractor under contract with a public agency which
41 requires the use of such equipment or requires the use, to a
42 significant extent, of such equipment in the performance of a
43 service or the furnishing of a product.

44 The term information technology includes, but is not limited to,
45 computers, ancillary equipment, software, firmware, and similar
46 procedures, services, including support services, and related
47 resources.

1 “Private entity” means any individual, corporation, company,
2 partnership, firm, association, or other entity, but does not include a
3 public agency as defined in this act, or a foreign government, or any
4 component thereof.

5 “Public agency” means any public agency of the State or any
6 political subdivision thereof.¹

7
8 2. a. ¹Every public agency and government contractor shall
9 report cybersecurity incidents to the New Jersey Office of
10 Homeland Security and Preparedness. The report shall be made
11 within 72 hours of when the public agency or government
12 contractor reasonably believes that a cybersecurity incident has
13 occurred.

14 b.¹ The New Jersey Office of Homeland Security and
15 Preparedness shall receive and maintain cybersecurity incident
16 notifications from public agencies ¹[and] ¹government contractors
17 ¹, and private entities¹ in accordance with this act.

18 ¹[b.] c.¹ No later than 90 days after the effective date of this
19 act, the Director of the New Jersey Office of Homeland Security
20 and Preparedness shall establish cyber incident reporting
21 capabilities to facilitate submission of timely, secure, and
22 confidential cybersecurity incident notifications from public
23 agencies ¹[and] ¹government contractors ¹, and private entities¹
24 to the office.

25 ¹[c.] d.¹ No later than 90 days after the effective date of this
26 act, the New Jersey Office of Homeland Security and Preparedness
27 shall prominently post instructions for submitting cybersecurity
28 incident notifications on its website. The instructions shall include,
29 at a minimum, the types of cybersecurity incidents to be reported
30 and any other information to be included in the notifications made
31 through the established cyber incident reporting system.

32 ¹[d.] e.¹ The cyber incident reporting system shall ¹[include
33 the ability for] permit¹ the New Jersey Office of Homeland
34 Security and Preparedness to:

35 (1) securely accept a cybersecurity incident notification from
36 any individual or private entity, regardless of whether the entity is a
37 public agency or government contractor;

38 (2) track and identify trends in cybersecurity incidents reported
39 through the cyber incident reporting system; and

40 (3) produce reports on the types of incidents, indicators,
41 defensive measures, and entities reported through the cyber incident
42 reporting system.

43 ¹[e.] f.¹ Any cybersecurity incident notification submitted to
44 the New Jersey Office of Homeland Security and Preparedness ¹[as
45 required under] pursuant to¹ P.L. , c. (C.)(pending
46 before the Legislature as this bill) shall be deemed confidential,
47 non-public, and not subject to the provisions of P.L.1963, c.73

(C.47:1A-1 et seq.), commonly known as the open public records act, as amended and supplemented, may not be discoverable in any civil or criminal action, and may not be subject to subpoena, unless the subpoena is issued by the New Jersey State Legislature and is deemed necessary for the purposes of legislative oversight.

¹[f.] g.¹ Notwithstanding the provisions of ¹[section e.] subsection f.¹ of this ¹[act] section¹, the New Jersey Office of Homeland Security and Preparedness may anonymize and share cyber threat indicators and relevant defensive measures to help prevent additional or future attacks and share cybersecurity incident notifications with relevant law enforcement authorities.

¹[g.] h.¹ Information submitted to the New Jersey Office of Homeland Security and Preparedness through the cyber incident reporting system shall be subject to privacy and protection procedures developed and implemented by the office, which shall be based on the comparable privacy protection procedures developed for information received and shared pursuant to the federal Cyber Security Information Sharing Act of 2015 (6 U.S.C. s.1501 et seq.).

3. Not later than one year after the date on which the cyber incident reporting system is established and at least once each year thereafter, the Director of the New Jersey Office of Homeland Security and Preparedness shall submit an annual report on its activities to the Governor, and to the Legislature, pursuant to ¹section 2 of¹ P.L.1991, c.164 (C.52:14-19.1). The report shall include, at a minimum:

a. information on the number of notifications received and a description of the ¹cybersecurity¹ incident types and associated mitigating measures taken during the one-year period preceding the publication of the report;

b. the categories of public agencies and government contractors that submitted cybersecurity notifications; and

c. ¹[the types of cybersecurity incidents and] any¹ other information required in the submission of a cybersecurity incident notification, noting any changes from the report published in the previous year.

4. This act shall take effect immediately.
