asset shall remain intangible personal property.
c. Classification of digital assets under this section shall be
construed in a manner to give the greatest effect to

b. Before a secured party may take control of a digital asset under this section, the secured party shall enter into a control agreement with the debtor. A control agreement may also set forth the terms under which a secured party may pledge its security interest in the digital asset as collateral for another transaction.

This subsection shall only apply to a security interest perfected by a method other than control.

e. Perfection by control creates a possessory security interest in a digital asset and shall not require physical possession.    under an existing contract or fulfilling an obligation required by the
   transaction; or

2. any substantially similar analogue, which is comprised of
   code, script, or programming language that executes the terms of an
   agreement, and which may include taking custody of and
   transferring an asset, or issuing executable instructions for these
   actions, based on the occurrence or nonoccurrence of specified
   conditions.

   of the [bank] qualifying financial institution. The accountant
   shall transmit the results of the examination to the commissioner
   within 120 days of the examination and may file the results with the

The \[bank\] qualifying financial institution shall not engage in any activity to use or exercise discretionary authority relating to a digital asset except based on customer instructions.
