7 1. a. Notwithstanding any other provision of law to the

11 which professional training, education, or experience is required,

14 applicant possesses a license, certificate of registration, or
15 certification and equivalent training, education, and experience for
16 that profession or occupation obtained in another state, district, or
17 territory of the United States of America, regardless of when the
18 license, certificate of registration, or certification and training,
19 education, or experience was obtained.

20 b. A professional or occupational board shall issue a license,

STATEMENT

This bill requires professional and occupational boards to issue a license, certificate of registration, or certification to any applicant who received a license and equivalent training, education, or experience in other state or jurisdiction of the United States for the time the applicant is domiciled in this State.

The bill requires a professional and occupational board to issue a license, certificate, or certification to an applicant who presents evidence to the board that: (1) the applicant's license, certificate of registration, or certification is in good standing in another jurisdiction; and (2) the applicant complies with all other requirements for licensure, including any requirement for examination.

The bill also requires each board to provide methods of evaluating equivalent training, education, or experience obtained towards meeting the requirements for the issuance of a license, certificate of registration, or certification. However, no method of evaluation shall operate in such a manner as to require the same number of hours of experience by the applicant.

This bill provides reciprocity for individuals with a license, certificate of registration, or certification issued by another jurisdiction of the United States. Individuals with these credentials from other states face barriers to entering the job market because professional and occupational licenses are often not transferable from state to state. This bill would allow individuals licensed in another jurisdiction to obtain a new license in New Jersey by virtue of their licensure in another state or other jurisdiction of the United States and would make it easier for those individuals to find or keep employment in this State.

The bill defines an applicant as a person who is the spouse of an active duty member of the Armed Forces of the United States.
