STATEMENT

10

11 This bill prohibits mental health care providers from disclosing,
12 and health insurance carriers from demanding, certain information
13 concerning behavioral health care services provided to their
14 patients.

15 Specifically, the bill restricts the information a mental health
16 care professional may disclose to a health insurance carrier to the
17 following information:

18 (1) The patient's name, age, sex, address, educational status,
19 identifying number within the insurance program, date of onset of
20 difficulty, date of initial consultation, dates of sessions, whether the
21 sessions are individual or group sessions, and fees;

22 (2) Diagnostic information, defined as therapeutic
23 characterizations of the type found in the current version of the
24 Diagnostic and Statistical Manual of Mental Disorders or in another
25 professionally recognized diagnostic manual;

26 (3) Status of the patient as voluntary or involuntary; or inpatient
27 or outpatient;

28 (4) The reason for continuing behavioral health care services,
29 limited to an assessment of the client's current level of functioning
30 and level of distress. These aspects shall be described as "none," or
31 by the terms "mild," "moderate," "severe" or "extreme;" and

32 (5) Prognosis, limited to an estimate of the minimal time during
33 which treatment might continue.

34 The bill also provides that the information provided to a carrier
35 pursuant to the bill shall be marked "Confidential" and, if directed
36 by the patient or an authorized representative, forwarded to the
37 attention of a specific individual.

38 The bill also prohibits a health insurance carrier from requesting,
39 or requiring in any contract or policy, information to be provided
40 from a mental health care professional concerning any covered
41 person, except the information described above.

42 In certain circumstances health insurance carriers have
43 requested, as part of utilization management, information from
44 mental health care providers that the providers are prohibited from
45 disclosing pursuant to the rules and regulations of the providers'
46 professional licensure. This bill is intended to reconcile that conflict

- 1 by codifying certain aspects of those rules of professional licensure
- 2 and by clearly limiting the information that the carrier can request,
- 3 or require to be provided, to the information that is permitted to be
- 4 shared pursuant to those rules.
