

# ASSEMBLY APPROPRIATIONS COMMITTEE

## STATEMENT TO

### ASSEMBLY COMMITTEE SUBSTITUTE FOR **ASSEMBLY, No. 4372**

# **STATE OF NEW JERSEY**

DATED: DECEMBER 12, 2022

The Assembly Appropriations Committee reports an Assembly Committee Substitute for Assembly Bill No. 4372.

This substitute bill, “The Elections Transparency Act,” requires independent expenditure committees to report campaign contributions in excess of \$7,500 and all expenditures; requires candidates and various committees to report campaign contributions in excess of \$200; increases campaign contribution limits; and makes various changes to campaign contribution reports and other requirements. The bill establishes a cumulative reporting requirement for independent expenditure committees and further modifies the definitions of independent expenditure and independent expenditure committee. The bill also modifies the definition of electioneering communication.

Under current law, candidate committees, joint candidates committees, political committees, continuing political committees, political party committees, and legislative leadership committees are required to file with the Election Law Enforcement Commission (ELEC) a report of all contributions in the form of moneys, loans, paid personal services, or other things of value made to it and all expenditures made, incurred, or authorized by it in furtherance of the nomination, election, or defeat of any candidate, or in aid of the passage or defeat of any public question, or to provide political information on any candidate or public question. This bill requires candidates and various committees to report campaign contributions in excess of \$200. This bill changes from “within 48 hours” to “within 24 hours” the timing established under current law for candidates and committees to report certain contributions and expenditures that occur within a certain number of days before an election. The bill requires candidate committees and joint candidates committees to file cumulative quarterly reports, and independent expenditure committees to file cumulative reports.

The bill deletes the ability of campaign treasurers to report by telegram certain contributions and expenditures, and instead requires their reporting by electronic transmission.

This bill also doubles the statutory maximum contribution limits. The bill also provides for the index used by ELEC to adjust limits to

be applied annually for campaigns other than gubernatorial. Under the bill, those limits would reset each year. The bill also updates to 2021 levels, already indexed by ELEC, the contribution amounts eligible for matching funds and the maximum public funding amounts available for gubernatorial candidates under the public financing program, along with related program thresholds. The bill also allows those candidates receiving public financing to accept additional contributions without receiving matching funds.

Under the bill, whenever any candidate declares a candidacy for any election and establishes a candidate committee, a joint candidates committee, or both, as the case may be, for the purpose of receiving contributions and making expenditures in connection with that election, the candidate must only accept from each entity permitted to make contributions to the candidate an amount not greater than the maximum contribution limit permitted by law to be made by the entity to the candidate for that election, even if the candidate declares a candidacy and establishes the committee or committees before the election year in which the candidate will run for office. The bill prohibits an entity from making additional contributions to a candidate for any election beyond the maximum contribution permitted by law.

The bill directs ELEC to create and maintain a database containing information that business entities are required to disclose and report to the commission under current law, concerning contributions made by the business entity and any contribution made during the duration of a public entity contract held by the business entity. Under the bill, a business entity who fails to disclose a contribution or the existence of a public contract would be subject to a fine of not less than \$250.

Finally, the bill sunsets any local ordinances, resolutions, or regulations limiting the awarding of public contracts to business entities that have made a contribution and limiting the contributions that the holders of a contract can make during the term of a contract. The bill would subject local units to the provisions of current law and this bill. This provision of the bill would affect such ordinances, resolutions, or regulations of a county, municipality, independent authority, board of education, or fire district, as appropriate. The bill also amends the current law public contract provisions to remove the prohibition against business entity contributions to the State committee of a political party; the State committee of the political party of a presiding officer of either or both houses of the Legislature and to a legislative leadership committee; to any county committee of a political party; and to any municipal committee of a political party. This bill retains the public contract prohibitions against business entity contributions to candidates in such State, county, and municipal governmental capacities. The bill extends to State Executive Branch contracts the “fair and open process” exemption that applies to contracts in the Legislative Branch, counties, and municipalities. The

bill also amends the definition of “fair and open process” to include a contract awarded through public bidding or competitive contracting.

**FISCAL IMPACT:**

This bill is not certified as requiring a fiscal note.
