#### 40 41 42 STATEMENT

43  
44 This bill requires the Commissioner of the Department of  
45 Corrections and the appropriate person on behalf of a private  
46 correctional facility to allow inmates incarcerated in State and

1 private correctional facilities to make telephone and video calls  
2 with no charge imposed upon the inmate or the other party.

3 Under current law, certain requirements are imposed upon  
4 telephone service contracts for inmates in State, county, and private  
5 correctional facilities, including the requirement that the rate for  
6 inmate telephone calls is not to exceed 11 cents per minute for  
7 domestic debit, prepaid, and collect calls.

8 Under the provisions of this bill, inmates incarcerated in State  
9 and private correctional facilities would be permitted to make  
10 telephone or video calls with no charge imposed upon the inmate or  
11 the other party, including international calls; provided that the  
12 telephone service contracts that the facilities enter into still adhere  
13 to the State contracting and procurement laws.

14 In the sponsor's view, the more incarcerated people stay in touch  
15 with their families, the better they do when they reenter society  
16 while those with weaker support systems due to lack of  
17 communication during incarceration, are more likely to re-offend.  
18 Some studies indicate that frequent and consistent family phone  
19 calls reduce recidivism and promote rehabilitation after release.

20 The sponsor notes that some families go into debt in their  
21 attempt to maintain contact with incarcerated loved ones through  
22 phone calls and visitations. It is the sponsor's intent to reduce the  
23 enormous financial burden of inmate phone calls as the high cost of  
24 prison phone calls have sapped savings from low-income families  
25 trying to communicate with their loved ones.
