STATEMENT

This joint resolution designates June 15 of each year as “Elder Abuse Awareness Day” in order to foster an awareness and understanding of elder abuse. This joint resolution also respectfully requests that the Governor issue an annual proclamation calling upon public officials and citizens of this state to observe the day with appropriate activities and programs.

Every year, approximately five million senior citizens across the United States are victims of elder abuse. Common signs of elder abuse include physical or emotional abuse, neglect, abandonment, sexual abuse, or financial abuse. Sadly, senior citizens are often abused by the same individuals responsible for their well-being such as a family member or staff members at an assisted living facility. Mistreatment often goes unreported as many victims are either ashamed or fear that the report will get back to the abuser and make the situation worse. To raise awareness of this widespread problem, the International Network for the Prevention of Elder Abuse and the World Health Organization launched World Elder Abuse Awareness Day on June 15, 2006. The purpose of this day is to provide communities across the globe the opportunity to better understand the abuse and neglect of senior citizens. By establishing June 15 as Elder Abuse Awareness Day in New Jersey, our communities will join with others across the globe in learning more about the causes and warning signs of elder abuse and what they can do to help.
