SENATE, No. 297

STATE OF NEW JERSEY
220th LEGISLATURE

PRE-FILED FOR INTRODUCTION IN THE 2022 SESSION

Sponsored by:

Senator LINDA R. GREENSTEIN

District 14 (Mercer and Middlesex)

Senator FRED H. MADDEN, JR.

District 4 (Camden and Gloucester)

Assemblywoman CAROL A. MURPHY

District 7 (Burlington)

Assemblyman DANIEL R. BENSON

District 14 (Mercer and Middlesex)

Assemblyman CLINTON CALABRESE

District 36 (Bergen and Passaic)

Co-Sponsored by:

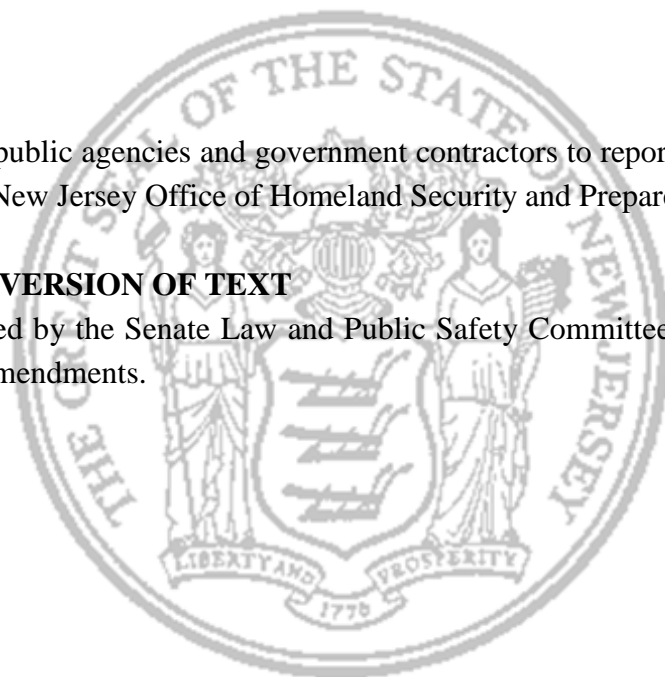

**Senators O'Scanlon, Turner, Pou, Assemblywoman Quijano,
Assemblyman Tully and Assemblywoman Mosquera**

SYNOPSIS

Requires public agencies and government contractors to report cybersecurity incidents to New Jersey Office of Homeland Security and Preparedness.

CURRENT VERSION OF TEXT

As reported by the Senate Law and Public Safety Committee on March 21, 2022, with amendments.

(Sponsorship Updated As Of: 1/26/2023)

1 AN ACT requiring public agencies ¹and government contractors¹ to
2 report cybersecurity incidents to the New Jersey Office of
3 Homeland Security and Preparedness and supplementing Title 52
4 of the New Jersey Statutes.

5
6 **BE IT ENACTED** by the Senate and General Assembly of the State
7 of New Jersey:

8
9 ¹[1. As used in this act, P.L. , c. (C.)(pending
10 before the Legislature as this bill):

11 a. “Public agency” means any public agency of the State or any
12 political subdivision thereof.

13 b. “Government contractor” means an individual or entity that
14 performs work for or on behalf of a public sector institution on a
15 contract basis with access to or hosting of the public agency’s
16 network, systems, applications, or information.

17 c. “Cybersecurity incident” means a malicious or suspicious
18 event occurring on or conducted through a computer network that
19 jeopardizes the integrity, confidentiality, or availability of an
20 information system or the information the system processes, stores,
21 or transmits.

22 d. “Cyber threat indicator” means information that is necessary
23 to describe or identify:

24 (1) malicious reconnaissance, including, but not limited to,
25 anomalous patterns of communication that appear to be transmitted
26 for the purpose of gathering technical information related to a
27 cybersecurity threat or vulnerability;

28 (2) a method of defeating a security control or exploitation of a
29 security vulnerability;

30 (3) a security vulnerability, including, but not limited to,
31 anomalous activity that appears to indicate the existence of a
32 security vulnerability;

33 (4) a method of causing a user with legitimate access to an
34 information system or information that is stored on, processed by,
35 or transiting an information system to unwittingly enable the defeat
36 of a security control or exploitation of a security vulnerability;

37 (5) malicious cyber command and control;

38 (6) the actual or potential harm caused by an incident, including
39 but not limited to, a description of the data exfiltrated as a result of
40 a particular cyber threat; and

41 (7) any other attribute of a cyber threat, if disclosure of such
42 attribute is not otherwise prohibited by law.

43 e. “Defensive measure” means an action, device, procedure,
44 signature, technique, or other measure applied to an information

EXPLANATION – Matter enclosed in bold-faced brackets **[thus]** in the above bill is not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

Matter enclosed in superscript numerals has been adopted as follows:

¹Senate SLP committee amendments adopted March 21, 2022.

1 system or information that is stored on, processed by, or transiting
2 an information system that detects, prevents, or mitigates a known
3 or suspected cyber threat or security vulnerability, but does not
4 include a measure that destroys, renders unusable, provides
5 unauthorized access to, or substantially harms an information
6 system or information stored on, processed by, or transiting such
7 information system not owned by the entity operating the measure,
8 or another entity that is authorized to provide consent and has
9 provided consent to that private entity for operation of such
10 measure.

11 f. “Information resource” means information and related
12 resources, such as personnel, equipment, funds, and information
13 technology.

14 g. “Information system” means a discrete set of information
15 resources organized for the collection, processing, maintenance,
16 use, sharing, dissemination, or disposition of information.

17 h. “Information technology” means any equipment or
18 interconnected system or subsystem of equipment that is used in
19 automatic acquisition, storage, manipulation, management,
20 movement, control, display, switching, interchange, transmission,
21 or reception of data or information used by a public sector
22 institution or a government contractor under contract with a public
23 sector institution which requires the use of such equipment or
24 requires the use, to a significant extent, of such equipment in the
25 performance of a service or the furnishing of a product.

26 The term information technology includes, but is not limited to,
27 computers, ancillary equipment, software, firmware, and similar
28 procedures, services, including support services, and related
29 resources.

30 i. “Private entity” means any individual, corporation,
31 company, partnership, firm, association, or other entity, but does
32 not include a public agency as defined in this act, or a foreign
33 government, or any component thereof. **1**¹

34

35 ¹1. As used in this act, P.L. _____, c. _____ (C. _____) (pending before
36 the Legislature as this bill):

37 “Cybersecurity incident” means a malicious or suspicious event
38 occurring on or conducted through a computer network that
39 jeopardizes the integrity, confidentiality, or availability of an
40 information system or the information the system processes, stores,
41 or transmits.

42 “Cyber threat indicator” means information that is necessary to
43 describe or identify:

44 (1) malicious reconnaissance, including, but not limited to,
45 anomalous patterns of communication that appear to be transmitted
46 for the purpose of gathering technical information related to a
47 cybersecurity threat or vulnerability;

- 1 (2) a method of defeating a security control or exploitation of a
2 security vulnerability;
- 3 (3) a security vulnerability, including, but not limited to,
4 anomalous activity that appears to indicate the existence of a
5 security vulnerability;
- 6 (4) a method of causing a user with legitimate access to an
7 information system or information that is stored on, processed by,
8 or transiting an information system to unwittingly enable the defeat
9 of a security control or exploitation of a security vulnerability;
- 10 (5) malicious cyber command and control;
- 11 (6) the actual or potential harm caused by an incident, including
12 but not limited to, a description of the data exfiltrated as a result of
13 a particular cyber threat; and
- 14 (7) any other attribute of a cyber threat, if disclosure of such
15 attribute is not otherwise prohibited by law.
- 16 “Defensive measure” means an action, device, procedure,
17 signature, technique, or other measure applied to an information
18 system or information that is stored on, processed by, or transiting
19 an information system that detects, prevents, or mitigates a known
20 or suspected cyber threat or security vulnerability, but does not
21 include a measure that destroys, renders unusable, provides
22 unauthorized access to, or substantially harms an information
23 system or information stored on, processed by, or transiting such
24 information system not owned by the entity operating the measure,
25 or another entity that is authorized to provide consent and has
26 provided consent to that private entity for operation of such
27 measure.
- 28 “Government contractor” means an individual or entity that
29 performs work for or on behalf of a public agency on a contract
30 basis with access to or hosting of the public agency’s network,
31 systems, applications, or information.
- 32 “Information resource” means information and related resources,
33 such as personnel, equipment, funds, and information technology.
- 34 “Information system” means a discrete set of information
35 resources organized for the collection, processing, maintenance,
36 use, sharing, dissemination, or disposition of information.
- 37 “Information technology” means any equipment or
38 interconnected system or subsystem of equipment that is used in
39 automatic acquisition, storage, manipulation, management,
40 movement, control, display, switching, interchange, transmission,
41 or reception of data or information used by a public agency or a
42 government contractor under contract with a public agency which
43 requires the use of such equipment or requires the use, to a
44 significant extent, of such equipment in the performance of a
45 service or the furnishing of a product.
- 46 The term information technology includes, but is not limited to,
47 computers, ancillary equipment, software, firmware, and similar

1 procedures, services, including support services, and related
2 resources.

3 “Private entity” means any individual, corporation, company,
4 partnership, firm, association, or other entity, but does not include a
5 public agency as defined in this act, or a foreign government, or any
6 component thereof.

7 “Public agency” means any public agency of the State or any
8 political subdivision thereof.¹

9

10 2. a. Every public agency and government contractor shall
11 report cybersecurity incidents to the New Jersey Office of
12 Homeland Security and Preparedness. The report shall be made
13 within 72 hours of when the public agency or government
14 contractor reasonably believes that a cybersecurity incident has
15 occurred.

16 b.¹ The New Jersey Office of Homeland Security and
17 Preparedness shall receive and maintain cybersecurity incident
18 notifications from public agencies ¹[and] ¹ government
19 contractors ¹, and private entities¹ in accordance with this act.

20 ¹[b.] c.¹ No later than 90 days after the effective date of this
21 act, the Director of the New Jersey Office of Homeland Security
22 and Preparedness shall establish cyber incident reporting
23 capabilities to facilitate submission of timely, secure, and
24 confidential cybersecurity incident notifications from public
25 agencies ¹[and] ¹ government contractors ¹, and private entities¹ to
26 the office.

27 ¹[c.] d.¹ No later than 90 days after the effective date of this
28 act, the New Jersey Office of Homeland Security and Preparedness
29 shall prominently post instructions for submitting cybersecurity
30 incident notifications on its website. The instructions shall include,
31 at a minimum, the types of cybersecurity incidents to be reported
32 and any other information to be included in the notifications made
33 through the established cyber incident reporting system.

34 ¹[d.] e.¹ The cyber incident reporting system shall ¹[include
35 the ability for] permit¹ the New Jersey Office of Homeland
36 Security and Preparedness to:

37 (1) securely accept a cybersecurity incident notification from
38 any individual or private entity, regardless of whether the entity is a
39 public agency or government contractor;

40 (2) track and identify trends in cybersecurity incidents reported
41 through the cyber incident reporting system; and

42 (3) produce reports on the types of incidents, indicators,
43 defensive measures, and entities reported through the cyber incident
44 reporting system.

45 ¹[e.] f.¹ Any cybersecurity incident notification submitted to
46 the New Jersey Office of Homeland Security and Preparedness ¹[as
47 required under] pursuant to¹ P.L. ,c. (C.)(pending

1 before the Legislature as this bill) shall be deemed confidential,
2 non-public, and not subject to the provisions of P.L.1963, c.73
3 (C.47:1A-1 et seq.), commonly known as the open public records
4 act, as amended and supplemented, may not be discoverable in any
5 civil or criminal action, and may not be subject to subpoena, unless
6 the subpoena is issued by the New Jersey State Legislature and is
7 deemed necessary for the purposes of legislative oversight.

8 ¹**[f.] g.**¹ Notwithstanding the provisions of ¹**[section e.]**
9 subsection f.¹ of this ¹**[act] section**¹, the New Jersey Office of
10 Homeland Security and Preparedness may anonymize and share
11 cyber threat indicators and relevant defensive measures to help
12 prevent additional or future attacks and share cybersecurity incident
13 notifications with relevant law enforcement authorities.

14 ¹**[g.] h.**¹ Information submitted to the New Jersey Office of
15 Homeland Security and Preparedness through the cyber incident
16 reporting system shall be subject to privacy and protection
17 procedures developed and implemented by the office, which shall
18 be based on the comparable privacy protection procedures
19 developed for information received and shared pursuant to the
20 federal Cyber Security Information Sharing Act of 2015 (6 U.S.C.
21 s.1501 et seq.).

22
23 3. Not later than one year after the date on which the cyber
24 incident reporting system is established and at least once each year
25 thereafter, the Director of the New Jersey Office of Homeland
26 Security and Preparedness shall submit an annual report on its
27 activities to the Governor, and to the Legislature, pursuant to
28 ¹section 2 of¹ P.L.1991, c.164 (C.52:14-19.1). The report shall
29 include, at a minimum:

30 a. information on the number of notifications received and a
31 description of the ¹cybersecurity¹ incident types and associated
32 mitigating measures taken during the one-year period preceding the
33 publication of the report;

34 b. the categories of public agencies and government contractors
35 that submitted cybersecurity notifications; and

36 c. ¹**[the types of cybersecurity incidents and]** any¹ other
37 information required in the submission of a cybersecurity incident
38 notification, noting any changes from the report published in the
39 previous year.

40
41 4. This act shall take effect immediately.
