STATEMENT

Under the provisions of the bill, at the beginning of each school year, and upon initial enrollment in the case of a student enrolling during the school year, a school district must provide to the parent or guardian of each student:

- a hardcopy of information on the National School Lunch Program and the federal School Breakfast Program; and
- a hardcopy application to apply for the school lunch and school breakfast programs and instructions for completing the application.

The school district may also provide the information and application electronically, through the usual means by which the district communicates with parents electronically. The application and information must be in a language that the parent or guardian understands. The district must provide assistance to a parent or guardian in filling out an application for school meal programs, if the parent or guardian requests this assistance.

The bill includes a provision that would require the parent or guardian to either submit an application to apply for the school lunch and school breakfast programs or submit a signed card provided by the school district indicating that the parent or guardian has received the application and information and is not interested in participating in the school lunch and school breakfast programs. If the school district does not receive an application or a signed card, the school district is required to make at least one attempt to contact the student's parent or guardian and request that the parent submit either an application or signed card.

The bill provides that when a student owes money for the equivalent of five or more school meals, the school district must make at least two attempts to contact the student's parent or guardian and request that the parent or guardian fill out an application for the school lunch and school breakfast programs.

The provisions of the bill will not apply to schools which participate in the Community Eligibility Provision. The Community Eligibility Provision is a federal reimbursement alternative for eligible, high-poverty local educational agencies and schools participating in both the National School Lunch Program and School Breakfast Program. Under the Community Eligibility Provision, schools that serve a high proportion of low-income students through direct certification are permitted to offer free breakfast and lunch to all students rather than collecting individual applications and limiting the meals to only income-eligible students.
