STATEMENT

6

7       This bill revises the requirements concerning exemptions from  
8 mandatory student immunization requirements.

9       Under the bill, provisions in the State Sanitary Code, or  
10 provisions otherwise set forth in statute or regulation, which require  
11 the immunization of children in public or private licensed child care  
12 centers and students at public or private elementary or secondary  
13 schools and institutions of higher education, are to provide for an  
14 exemption from the mandatory immunization requirements based  
15 upon a statement submitted to the child care center, elementary or  
16 secondary school, or institution of higher education, as applicable,  
17 using a standard form designated by the Department of Health by a  
18 licensed physician, doctor of osteopathy, or advanced practice nurse  
19 indicating: (1) that the vaccine is medically contraindicated for a  
20 specific period of time; (2) the professional's full name, address,  
21 and national provider identifier (or the national provider identifier  
22 of the professional's collaborating physician); and (3) the reasons  
23 for the medical contraindication, which are to be valid medical  
24 reasons consistent with guidelines issued by the Advisory  
25 Committee on Immunization Practices (ACIP) in the federal  
26 Centers for Disease Control and Prevention. The child or student  
27 will be exempt from receiving the indicated vaccination for the  
28 stated period of time.

29       In addition, the bill authorizes an exemption from mandatory  
30 immunization requirements for a child or student who has a sibling  
31 who experienced a vaccine injury. To qualify for the exemption,  
32 the child or student will be required to submit to the Department of  
33 Health documentation of a final determination of vaccine injury  
34 issued through the Vaccine Injury Compensation Program  
35 administered by the Health Resources and Services Administration  
36 in the United States Department of Health and Human Services or a  
37 final judgment issued by a court of competent jurisdiction that  
38 includes a finding of vaccine injury. Documentation of the  
39 department's approval of a sibling vaccine injury exemption will be  
40 submitted to the school or child care center by the child or student,  
41 or by the child or student's parent or guardian, if the child or  
42 student is a minor.

43       Medical and sibling vaccine injury exemptions may be subject to  
44 review and approval by a physician employed by or consulting for  
45 the county or local board of health, and may be audited by county  
46 and local boards of health. Approved medical and sibling vaccine  
47 injury exemptions will be forwarded for inclusion in the New Jersey  
48 Immunization Information System (NJIIS). The bill requires the

1 NJIIS to be updated no later than one year after the effective date of  
2 the bill to allow for the inclusion of medical exemption information,  
3 and to allow for a printable report of information included in the  
4 registry.

5 The bill prohibits a public child care center, elementary or  
6 secondary school, or institution of higher education from exempting  
7 a child or student from a mandatory immunization unless the child

14 and students who are not in full compliance with mandatory  
15 immunization requirements and who do not meet the requirements  
16 for a medical or sibling vaccine injury exemption, provided that the  
17 facility requires each child or student enrolled in the child care  
18 center, preschool program, school, or institution of higher  
19 education, or the child's or student's parent or guardian if the child  
20 or student is a minor, to sign an acknowledgement form, at the time  
21 of enrollment, that sets forth the facility's policy with regard to

32 for this purpose.

33 A child or student who is not in compliance with mandatory  
34 immunization requirements who seeks to attend the nonpublic child  
35 care center, preschool program, school, or institution of higher  
36 education will be required to provide the facility with written notice  
37 of which specific immunization requirements the child or student is  
38 not in compliance with and sign a form that states that the child or  
39 student, or the child or student's parent or guardian, as applicable,
