21 other matters as the commissioner shall prescribe, signed and sworn
22 to by its president and secretary or other proper officers. If the

16 STATEMENT

17
18 This bill amends the current law to permit dental service
19 corporations to be or become subsidiaries of nonprofit parents.
20 Under the current law, a dental service corporation is prohibited
21 from spending more than 10 percent of its assets or more than 50
22 percent of its surplus, whichever is less, on investments. This puts
23 dental service corporations at a disadvantage compared to other
24 health insurance companies, despite the fact that dental service
25 corporations have more predictable risks of loss and thus have less
26 need for limiting the use of company funds.

27 Allowing dental service corporations to be or become
28 subsidiaries of nonprofit parent companies, while still imposing all
29 statutory requirements on the dental service corporations
30 themselves, would give a nonprofit parent freedom to invest funds
31 and be better able to help its dental service corporation subsidiary
32 compete with larger health insurance companies that offer dental
33 services. At the same time, the dental service corporation
34 subsidiary would still have to comply with the "Dental Service
35 Corporation Act of 1968," including the limitation on investing
36 company funds. By amending the current law, this bill promotes
37 competition in the dental service market and ensures that patients
38 are still adequately protected.
