31

9 1. a. A school district shall include instruction on the dangers 10 of fentanyl and xylazine in an appropriate place in the curriculum of 11 students in grades six through 12 as part of the district's 12 implementation of the New Jersey Student Learning Standards in 13 Comprehensive Health and Physical Education.

b. The instruction shall include, at a minimum, information on:

15 (1) fentanyl and xylazine abuse prevention;

16 (2) fentanyl and xylazine poisoning awareness;

17 (3) the dangers of synthetic opioids, including fentanyl or any18 substituted derivative of fentanyl, xylazine, and counterfeit drugs;

19 (4) recognizing the symptoms of fentanyl and xylazine20 poisoning;

(5) how to respond to a fentanyl or xylazine poisoningemergency; and

(6) laws that provide immunity or other protections for persons
who report drug or alcohol use, or who seek medical treatment for
drug or alcohol poisoning or overdoses for themselves or others.

c. The Commissioner of Education shall provide school
districts with age-appropriate resources designed to implement the
requirement established pursuant to subsection a. of this section.
Information for instruction on the dangers of fentanyl and xylazine
shall utilize information and resources provided by:

(1) the National Institutes of Health;

32 (2) the United States Drug Enforcement Administration;

33 (3) the United States Department of Health and Human34 Services;

35 (4) the Centers for Disease Control and Prevention; or

36 (5) any State, county, or municipal department or agency.

d. The Department of Education shall post and maintain on itsInternet website information on:

39 (1) instruction on the dangers of fentanyl and xylazine provided40 to school districts pursuant to subsection c. of this section;

41 (2) awareness and safety materials for school staff, students, and42 parents on opioid poisoning prevention;

43 (3) outreach organizations with resources concerning opioid44 awareness and opioid poisoning prevention; and

45 (4) preventative mental health resources available from
46 applicable federal, State, county, or municipal departments and
47 agencies.

8 2. The Commissioner of Education, in consultation with local 9 school districts and the Commissioner of Health, shall submit an 10 annual report to the Governor, and to the Legislature pursuant to 11 section 2 of P.L.1991, c.164 (C.52:14-19.1), on the implementation 12 of the curriculum requirement established pursuant to section 1 P.L. 13) (pending before the Legislature as this bill). , c. (C. 14 The report shall include an evaluation of the effectiveness of the 15 curriculum in reducing and preventing the use of, or poisoning 16 from, fentanyl, xylazine, and similar drugs among youth, and 17 recommendations to improve and enhance the effectiveness of the 18 curriculum.

20 3. This act shall take effect immediately and shall first apply to21 the first full school year following the date of enactment.

STATEMENT

This bill, to be known as "Max's Law," requires school districts to provide instruction on the dangers of fentanyl and xylazine as part of the district's implementation of the New Jersey Student Learning Standards in Comprehensive Health and Physical Education.

31 Under the bill, the instruction is required to include information 32 on: (1) fentanyl and xylazine abuse prevention; (2) fentanyl and 33 xylazine poisoning awareness; (3) the dangers of synthetic opioids, 34 including fentanyl or any substituted derivative of fentanyl, 35 xylazine, and counterfeit drugs; (4) recognizing the symptoms of fentanyl and xylazine poisoning; (5) how to respond to a fentanyl or 36 37 xylazine poisoning emergency; and (6) laws that provide immunity 38 or other protections for persons who report drug or alcohol use, or 39 who seek medical treatment for drug or alcohol poisoning or 40 overdoses for themselves or others.

Additionally, the bill requires the Commissioner of Education to provide school districts with age-appropriate resources designed to implement the requirements established under the bill. The information is required to utilize information and resources provided by: (1) the National Institutes of Health; (2) the United States Drug Enforcement Administration; (3) the United States Department of Health and Human Services; (4) the Centers for

4

Disease Control and Prevention; or (5) any State, county, or
 municipal department or agency.

3 The bill requires the Department of Education to post and 4 maintain on its Internet website: (1) information for instruction on 5 the dangers of fentanyl and xylazine provided to school districts; (2) materials containing awareness 6 informational and safety information for school staff, students, and parents, on opioid 7 8 poisoning prevention; (3) information on outreach organizations 9 with resources concerning opioid awareness and opioid poisoning 10 prevention; and (4) preventative mental health resources available 11 from applicable federal, state, county, or municipal departments and 12 agencies.

13 Xylazine, commonly referred to as "tranq," is a non-opioid 14 sedatitve, or tranquilizer. While xylazine is not considered a 15 controlled substance in the United States, it is not approved for use 16 in people. The Federal Drug Enforcement Administration reported 17 that xylazine and fentanyl mixtures place users at a higher risk of 18 suffering a fatal drug poisoning.

19 It is the sponsor's intent that this bill raise awareness of the 20 dangers of fentanyl and xylazine and to honor the memory of Max 21 Lenowitz of Woodcliff Lake, a beloved son, brother, and friend, and 22 the thousands of other New Jersey residents who have lost their 23 lives to fentanyl or xylazine poisoning.
