

CHAPTER 399

AN ACT concerning State economic development policy, and supplementing and amending P.L.2020, c.156.

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey:*

C.34:1B-335.4 Findings and declarations.

1. The Legislature finds and declares that:
 - a. Due to its location, population, and pool of talent, New Jersey is well situated to promote and expand its sports and entertainment industry.
 - b. Nationally, sports and entertainment facilities are major drivers of economic activity and are often located in downtown areas of the country's major cities. In large metropolitan statistical areas, multiple facilities in different states may compete for the same events and visitors, and New Jersey is no exception.
 - c. The New Jersey Economic Development Authority can effectively utilize sports and entertainment facilities as catalysts for broad economic development in targeted communities.
 - d. Sports and entertainment facilities attract visitors and businesses to the State by leveraging the economic and cultural benefits of building and supporting world-class facilities capable of hosting events that can bring communities together.
 - e. Full-scale renovations can extend and expand the lifespan of sports and entertainment facilities, shoring up key infrastructure components and modernizing facilities so they remain safe and competitive, and so they continue to serve the State, the local community, and the purposes for which they were built.
 - f. Governmental support, alongside operator equity, is commonly needed to make the renovation and enhancement of these facilities a reality. Public investment is leveraged to preserve and expand an economic engine that benefits governmental entities through the generation of tax receipts and creation of jobs, the private businesses serving and benefitting from the facility, their customers, employees, and the general public.
 - g. Projects involving the development, redevelopment, or rehabilitation of sports and entertainment facilities are inherently beneficial to the State because they provide vital contributions to the communities in which they are located.
 - h. The Legislature declares that two principal objectives underscore the policy purposes of P.L.2025, c.399 (C.34:1B-335.4 et al.): first, that providing spaces for communities to gather will result in thriving communities; and second, although the State must help to provide these spaces through an incentive program that reflects the economics of sports and entertainment facilities, because the current suite of economic development programs cannot succeed in this endeavor, the enactment of P.L.2025, c.399 (C.34:1B-335.4 et al.) is necessary to encourage the development of sports and entertainment projects that will prevent the loss of events to other states with newer or more newly renovated facilities, as well as the resulting loss of tax revenues, jobs, and other economic activity.

C.34:1B-335.5 Definitions.

2. As used in sections 3 through 4 of P.L.2025, c.399 (C.34:1B-335.6 through C.34:1B-335.7), all terms shall have the same meanings as defined in section 55 of P.L.2020, c.156 (C.34:1B-323), except as follows:

an agreement with the developer that specifies the co-applicant's participation in the redevelopment project.

"Commitment period" means the period beginning with the commencement of the eligibility period of a sports and entertainment project, or for a sports and entertainment project completed in phases, beginning with the commencement of the phase in which more than 50 percent of the sports and entertainment project is completed, which period shall continue until the end of the period of time used for the gross economic benefit determined pursuant to subsection c. of section 3 of P.L.2025, c.399 (C.34:1B-335.6), and which period shall be evidenced by the submission of a copy of a lease for the property that, at a minimum, meets the duration of the commitment period.

"Eligibility period" means the period not less than five years, as specified in an incentive award agreement, during which a developer may claim a tax credit under the program, provided that the developer of a phased sports and entertainment project may elect a separate eligibility period for each phase of no less than five years.

"Project financing gap" means the part of the total project cost that remains to be financed after all other sources of capital have been accounted for, including, but not limited to, developer contributed capital, which shall not be less than 20 percent of the total project cost, and investor or financial entity capital or loans for which the developer, after making all good faith efforts to raise additional capital, certifies that additional capital cannot be raised from other sources based on incremental revenue generated at the facility by the sports and entertainment project on a non-recourse basis on market terms.

"Sports and entertainment facility" means a facility that is an arena that: is used primarily for live sports or entertainment performances, games, contests, or other events; has a seating capacity of at least 15,000 individuals; and has been operating for at least 15 years in a city of the first class, as classified under N.J.S.40A:6-4, that contains an international airport.

C.34:1B-335.6 Sports and entertainment project requirements.

3. a. (1) Prior to June 30, 2027, a developer seeking tax credits for a sports and entertainment project shall submit an application to the authority in the form and manner prescribed pursuant to sections 55 through 67 of P.L.2020, c.156 (C.34:1B-323 through C.34:1B-335), as amended and supplemented, except as otherwise provided in this section and section 4 of P.L.2025, c.399 (C.34:1B-335.7).

(2) Notwithstanding any provision of law to the contrary, for the purposes of administering sections 1 through 4 of P.L.2025, c.399 (C.34:1B-335.4 through C.34:1B-335.7), a "sports and

entertainment project,” as that term is defined in section 2 of P.L.2025, c.399 (C.34:1B-335.5), shall be considered a “redevelopment project,” as that term is used in sections 55 through 67 of P.L.2020, c.156 (C.34:1B-323 through C.34:1B-335), as amended and supplemented.

b. (1) A sports and entertainment project may be completed in a maximum of five phases, and the developer shall enter into a sports and entertainment project phase agreement with the authority for each phase.

(2) Notwithstanding the provision of any law to the contrary, a sports and entertainment project shall be completed, and the developer shall have completed its expenditure of eligible project costs, within six years of executing the incentive award agreement, except that the authority may, in its discretion, extend this deadline by up to one additional year. For a sports and entertainment project completed in phases, the final phase of the sports and entertainment project shall be completed, and the developer shall have completed its expenditure of eligible project costs, within 10 years of executing the incentive award agreement or the sports and entertainment phase agreement corresponding to the first phase of the sports and entertainment project, whichever was executed later.

(3) Notwithstanding any other provision of law to the contrary, for a sports and entertainment project completed in phases, each phase shall have a separate eligibility period, and the developer shall contribute capital of no less than 20 percent of the project costs for each phase. After completing each phase, the developer shall submit a certification to the authority attesting that the phase is completed. If the authority approves the certification, the tax credit certificate allowed to the developer shall be increased by the tax credit amount corresponding to that phase. Notwithstanding the different eligibility periods for each phase, all conditions and requirements applicable during an eligibility period for any phase of the project, pursuant to sections 55 through 67 of P.L.2020, c.156 (C.34:1B-323 through C.34:1B-335), as amended and supplemented, except as otherwise provided in this section and section 4 of P.L.2025, c.399 (C.34:1B-335.6 and C.34:1B-335.7), shall apply to the entire sports and entertainment project until the end of the eligibility period for the last phase.

c. (1) In lieu of the requirements of subsection c. of section 58 of P.L.2020, c.156 (C.34:1B-326), the authority shall review the project costs of a sports and entertainment project; evaluate and validate the project financing gap, as defined in section 2 of P.L.2025, c.399 (C.34:1B-335.5), estimated by the developer; and conduct a State fiscal impact analysis to ensure that the gross economic benefit of the sports and entertainment facility to the State over the duration of the commitment period is at least 150 percent of the overall public assistance provided to the sports and entertainment project. In determining the gross economic benefits of the sports and entertainment facility, the authority's consideration shall include, but not be limited to, the direct and indirect benefits to the State, including local taxes that may benefit the State, and may include induced benefits to the State, including benefits derived from construction. The determination shall include all such benefits to the State that result from the sports and entertainment facility over the duration of the commitment period. The authority shall assess the cost of these reviews to the applicant. A developer shall pay to the authority the full amount of the direct costs of an analysis concerning the developer's application for tax credits that a third party retained by the authority performs, if the authority deems such retention to be necessary.

(2) In addition to the evaluation conducted pursuant to paragraph (1) of this subsection, the authority shall conduct an analysis of the developer's project financing gap, as defined in section 2 of P.L.2025, c.399 (C.34:1B-335.5), in lieu of determining whether the developer's actual rate of return on investment exceeds the reasonable and appropriate rate of return on investment at the time of board approval, which analysis shall be conducted in accordance with

the provisions of subsection c. of section 60 of P.L.2020, c.156 (C.34:1B-328), except as otherwise provided in this section and section 4 of P.L.2025, c.399 (C.34:1B-335.6 and 34:1B-335.7), or in the guidelines developed pursuant to subsection c. of section 4 of P.L.2025, c.399 (34:1B-335.7).

d. In addition to the requirements of sections 55 through 67 of P.L.2020, c.156 (C.34:1B-323 through C.34:1B-335), as amended and supplemented, the developer of a sports and entertainment project shall enter into a workforce development agreement, except that a co-applicant may execute the workforce development agreement on behalf of the developer. The workforce development agreement shall include the provision of opportunities for workforce hiring, training, or apprenticeship, or other measures determined appropriate by the authority.

e. (1) Notwithstanding the provisions of subsection f. of section 60 of P.L.2020, c.156 (C.34:1B-328) to the contrary, the developer of a sports and entertainment project shall enter into a community benefits agreement with the authority and the municipality in which the sports and entertainment project is located. The agreement shall include, at a minimum, requirements for training, employment, and youth development and free services to underserved communities in and around the community in which the sports and entertainment project is located. Prior to entering a community benefits agreement, the municipality in which the sports and entertainment project is located shall hold at least one previously advertised public hearing at which residents, community groups, and other stakeholders shall have an opportunity testify concerning the needs of the community that the agreement should address, and the minutes of the meeting shall be included in the resolution of the governing body of the municipality adopting the community benefits agreement.

(2) The community benefits agreement shall provide for the creation of a community advisory committee to oversee the implementation of the agreement, monitor successes, ensure compliance with the terms of the agreement, and produce an annual public report. The community advisory committee created pursuant to this paragraph shall be comprised of representatives of diverse community groups and residents of the municipality in which the redevelopment project is located.

(3) When the developer submits the annual report required pursuant to section 62 of P.L.2020, c.156 (C.34:1B-330) to the authority, the developer shall certify, under the penalty of perjury, that it is in compliance with the terms of the community benefits agreement. If the developer fails to provide the certification required pursuant to this paragraph, or the authority determines that the developer is not in compliance with the terms of the community benefits agreement based on a report from the community advisory committee pursuant to paragraph (2) of this subsection, the authority may rescind an award or recapture all or part of any tax credits awarded.

f. (1) During the commitment period, each worker employed to perform construction work at the sports and entertainment facility shall be paid not less than the prevailing wage rate for the worker's craft or trade, as determined by the Commissioner of Labor and Workforce Development pursuant to P.L.1963, c.150 (C.34:11-56.25 et seq.) and P.L.2005, c.379 (C.34:11-56.58 et seq.).

(2) During the commitment period, each worker employed to perform building services work at the sports and entertainment facility, whether pursuant to contract by the developer or a commercial tenant, commercial subtenant, or other commercial occupant, shall be paid not less than the prevailing wage rate for the worker's craft or trade, as determined by the Commissioner of Labor and Workforce Development pursuant to P.L.1963, c.150 (C.34:11-56.25 et seq.) and P.L.2005, c.379 (C.34:11-56.58 et seq.).

g. Notwithstanding the provisions of paragraph (4) of subsection a. of section 57 of P.L. 2020, c.156 (C.34:1B-325) to the contrary, the developer of a sports and entertainment project may have undertaken construction at the sports and entertainment facility before the date of application for tax credits pursuant to P.L.2025, c.399 (C.34:1B-335.4 et al.), provided that, except for demolition and site remediation activities, the developer has not commenced any construction for the sports and entertainment project before such time.

h. In addition to the requirements of sections 55 through 67 of P.L.2020, c.156 (C.34:1B-323 through C.34:1B-335), as amended and supplemented, a sports and entertainment project shall exceed the standards established by the authority in accordance with the green building manual prepared by the Commissioner of Community Affairs pursuant to section 1 of P.L.2007, c.132 (C.52:27D-130.6), regarding the use of renewable energy, energy-efficient technology, and non-renewable resources to reduce environmental degradation and encourage long-term cost reduction. The replacement or retrofitting of existing components and infrastructure at the sports and entertainment facility as part of the sports and entertainment project shall result in a material reduction, as determined by the authority in the guidelines developed pursuant to subsection c. of section 4 of P.L.2025, c.399 (C.34:1B-335.7), of the energy usage, greenhouse gas emissions, and co-pollutant emissions for the components and infrastructure replaced.

i. Notwithstanding any provision of law, rule, or regulation to the contrary, any fees, including application fees, imposed by the authority for a sports and entertainment project shall be equal to the fees for a transformative project under the New Jersey Aspire Program.

j. (1) Notwithstanding the provisions of subsection b. of section 61 of P.L.2020, c.156 (C.34:1B-329) to the contrary, the authority may allow a developer of a sports and entertainment project a tax credit in an amount not to exceed the lesser of:

- (a) 80 percent of the eligible project cost for the sports and entertainment project; or
- (b) \$300,000,000.

(2) For a sports and entertainment project that is completed in phases, the value of tax credits awarded for any single phase shall not exceed \$95,000,000, provided that any eligible project costs, including the corresponding developer contributed capital, that could not be included in a phase due to the limitations of this paragraph may be included in a subsequent phase.
