1 **AN ACT** concerning advanced practice nurses, revising various parts
 2 of the statutory law, and supplementing P.L.1991, c.377
 3 (C.45:11-45 et al.).

5 **BE IT ENACTED** *by the Senate and General Assembly of the State*
 6 *of New Jersey:*
 7

- 8 1. (New section) The Legislature finds and declares that:
- 9 a. Advanced practice nurses are registered nurses who are
 10 certified to provide an advanced level of health care to patients that
 11 exceeds the standard scope of nursing practice.
- 12 b. Advanced practice nurses augment the system of care in
 13 New Jersey and nationwide by providing treatment services at a
 14 level that can relieve some of the demand on physicians, of whom
 15 there is a chronic shortage, and expedite access to care for patients,
 16 including those in medically underserved areas and among
 17 medically underserved populations.
- 18 c. Studies suggest that approximately one quarter of the
 19 population of the United States lives in an area with a shortage of
 20 primary care professionals. Limited access to care is frequently
 21 worse among racial and ethnic minorities, people with low incomes,
 22 and individuals for whom a lack of transportation creates logistical
 23 barriers to health care.
- 24 d. One way to reduce gaps in health care access is to allow full
 25 practice authority for advanced practice nurses, over 75 percent of
 26 whom are educated in a primary care specialty and can directly
 27 improve access to both primary care services and specialty care
 28 services.
- 29 e. Currently, 24 states, the District of Columbia, and two U.S.
 30 territories have adopted full practice authority for advanced practice
 31 nurses. The requirement to practice in collaboration with a
 32 physician limits the ability of advanced practice nurses to provide
 33 primary care and specialty care services, and has been associated
 34 with advanced practice nurses leaving New Jersey for other
 35 jurisdictions with fewer practice restrictions.
- 36 f. It has been estimated that removing practice restrictions for
 37 advanced practice nurses has the potential to reduce health care
 38 access disparities by a factor of more than 38 percent.
- 39 g. In response to the coronavirus disease 2019 (COVID-19)
 40 pandemic, Governor Murphy issued Executive Order No. 112,
 41 which, among other things, directly and through waivers issued
 42 pursuant to its authority, waived existing practice restrictions for
 43 advanced practice nurses, including joint protocol and supervision
 44 requirements.

EXPLANATION – Matter enclosed in bold-faced brackets **[thus]** in the above bill is
 not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.

1 h. According to surveys, over 45 percent of advanced practice
2 nurses in New Jersey reported working without practice restrictions
3 as authorized under Executive Order No. 112 and the waivers
4 issued pursuant to the executive order. No adverse incidents were
5 reported during the waiver period involving advanced practice
6 nurses practicing without practice restrictions.

7 i. Given the need for expanded access to care, it is necessary
8 and appropriate to take steps to remove practice restrictions that
9 serve as a barrier for advanced practice nurses to practice in New
10 Jersey to the full extent of their education, clinical training, and
11 national certification.

12
13 2. Section 1 of P.L.1947, c.262 (C.45:11-23) is amended to
14 read as follows:

15 1. As used in this act:

16 a. The words "the board" mean the New Jersey Board of
17 Nursing created by this act.

18 b. The practice of nursing as a registered professional nurse is
19 defined as diagnosing and treating human responses to actual or
20 potential physical and emotional health problems, through such
21 services as casefinding, health teaching, health counseling, and
22 provision of care supportive to or restorative of life and well-being,
23 and executing medical regimens as prescribed by a licensed or
24 otherwise legally authorized physician or dentist. Diagnosing in the
25 context of nursing practice means the identification of and
26 discrimination between physical and psychosocial signs and
27 symptoms essential to effective execution and management of the
28 nursing regimen within the scope of practice of the registered
29 professional nurse. Such diagnostic privilege is distinct from a
30 medical diagnosis. Treating means selection and performance of
31 those therapeutic measures essential to the effective management
32 and execution of the nursing regimen. Human responses means
33 those signs, symptoms, and processes which denote the individual's
34 health need or reaction to an actual or potential health problem.

35 The practice of nursing as a licensed practical nurse is defined as
36 performing tasks and responsibilities within the framework of
37 casefinding; reinforcing the patient and family teaching program
38 through health teaching, health counseling and provision of
39 supportive and restorative care, under the direction of a registered
40 nurse or licensed or otherwise legally authorized physician or
41 dentist.

42 The terms "nursing," "professional nursing," and "practical
43 nursing" as used in this act shall not be construed to include nursing
44 by students enrolled in a school of nursing accredited or approved
45 by the board performed in the prescribed course of study and
46 training, nor nursing performed in hospitals, institutions and
47 agencies approved by the board for this purpose by graduates of
48 such schools pending the results of the first licensing examination

1 scheduled by the board following completion of a course of study
2 and training and the attaining of age qualification for examination,
3 or thereafter with the approval of the board in the case of each
4 individual pending results of subsequent examinations; nor shall
5 any of said terms be construed to include nursing performed for a
6 period not exceeding 12 months unless the board shall approve a
7 longer period, in hospitals, institutions or agencies by a nurse
8 legally qualified under the laws of another state or country, pending
9 results of an application for licensing under this act, if such nurse
10 does not represent or hold himself or herself out as a nurse licensed
11 to practice under this act; nor shall any of said terms be construed to
12 include the practice of nursing in this State by any legally qualified
13 nurse of another state whose engagement made outside of this State
14 requires such nurse to accompany and care for the patient while in
15 this State during the period of such engagement, not to exceed six
16 months in this State, if such nurse does not represent or hold
17 himself or herself out as a nurse licensed to practice in this State;
18 nor shall any of said terms be construed to include nursing
19 performed by employees or officers of the United States
20 Government or any agency or service thereof while in the discharge
21 of his or her official duties; nor shall any of said terms be construed
22 to include services performed by nurses aides, attendants, orderlies
23 and ward helpers in hospitals, institutions and agencies or by
24 technicians, physiotherapists, or medical secretaries, and such
25 duties performed by said persons aforementioned shall not be
26 subject to rules or regulations which the board may prescribe
27 concerning nursing; nor shall any of said terms be construed to
28 include first aid nursing assistance, or gratuitous care by friends or
29 members of the family of a sick or infirm person, or incidental care
30 of the sick by a person employed primarily as a domestic or
31 housekeeper, notwithstanding that the occasion for such
32 employment may be sickness, if such incidental care does not
33 constitute professional nursing and such person does not claim or
34 purport to be a licensed nurse; nor shall any of said terms be
35 construed to include services rendered in accordance with the
36 practice of the religious tenets of any well-recognized church or
37 denomination which subscribes to the art of healing by prayer. A
38 person who is otherwise qualified shall not be denied licensure as a
39 professional nurse or practical nurse by reason of the circumstances
40 that such person is in religious life and has taken a vow of poverty.

41 c. "Homemaker-home health aide" means a person who is
42 employed by a home care services agency and who is performing
43 delegated nursing regimens or nursing tasks delegated through the
44 authority of a duly licensed registered professional nurse. No
45 homemaker-home health aide shall follow a delegated nursing
46 regimen or perform tasks which are delegated unless the
47 homemaker-home health aide is under the supervision of a duly
48 licensed registered professional nurse provided by the home care

1 services agency that directly employs the homemaker-home health
2 aide. "Home care services agency" means home health agencies,
3 assisted living residences, comprehensive personal care homes,
4 assisted living programs or alternate family care sponsor agencies
5 licensed by the Department of Health pursuant to P.L.1971, c.136
6 (C.26:2H-1 et al.), nonprofit homemaker-home health aide
7 agencies, and health care service firms regulated by the Director of
8 the Division of Consumer Affairs in the Department of Law and
9 Public Safety and the Attorney General pursuant to P.L.1989, c.331
10 (C.34:8-43 et seq.) and P.L.1960, c.39 (C.56:8-1 et seq.)
11 respectively, which are engaged in the business of procuring or
12 offering to procure employment for homemaker-home health aides,
13 where a fee may be exacted, charged or received directly or
14 indirectly for procuring or offering to procure that employment.

15 d. "Advanced practice nurse" means a person who holds a
16 certification in accordance with section 8 or 9 of P.L.1991, c.377
17 (C.45:11-47 or 45:11-48).

18 e. "Collaborating **physician** provider" means a **person**
19 physician licensed to practice medicine and surgery pursuant to
20 chapter 9 of Title 45 of the Revised Statutes **who agrees to work**
21 **with** or an advanced practice nurse issued a certification pursuant
22 to section 8 or 9 of P.L.1991, c.377 (C.45:11-47 or C.45:11-48)
23 with more than 24 months or 2,400 hours of licensed, active,
24 advanced nursing practice in an initial role.

25 f. "APN-Anesthesia" or "Certified Registered Nurse
26 Anesthetist" means an advanced practice nurse licensed to practice
27 as an APN-Anesthesia in accordance with the requirements
28 established by the board for licensure as an APN-Anesthesia.

29 Nothing in this act shall confer the authority to a person licensed
30 to practice nursing to practice another health profession as currently
31 defined in Title 45 of the Revised Statutes.

30 STATEMENT

31
32 This bill eliminates practice restrictions for advanced practice
33 nurses (APNs), including restrictions that limit the ability of APNs to
34 prescribe medications and administer anesthesia, and establishes new
35 requirements for APNs to prescribe medications.

36 The bill expressly provides that, notwithstanding the provisions of
37 any other law or regulation to the contrary, an APN with greater than
38 24 months or 2,400 hours of licensed, active, advanced nursing
39 practice will be authorized to practice without a joint protocol with a
40 collaborating provider.

41 With regard to prescribing medications, the bill requires the use of
42 New Jersey Prescription Blanks and satisfying continuing professional
43 education requirements related to pharmacology and prescribing
44 controlled substances. An APN with fewer than 24 months or 2,400
45 hours of licensed, active, advanced nursing practice in an initial role
46 will be permitted to prescribe medication only if a formal joint
47 protocol with a physician or experienced advanced practice nurse is in
48 place.

1 The bill revises the requirements for APNs to authorize patients for
2 medical cannabis and to issue written instructions for medical
3 cannabis, to provide that the APN will only be required to meet the
4 requirements set forth under the “Jake Honig Compassionate Use
5 Medical Cannabis Act,” P.L.2009, c.307 (C.24:6I-1 et al.). Those
6 requirements include: possessing active State and federal registrations
7 to prescribe controlled dangerous substances; being the health care
8 practitioner responsible for the ongoing treatment of a patient's
9 qualifying medical condition; and complying with various other
10 requirements for issuing written instructions for medical cannabis.

11 The bill further provides that every APN who is an APN-
12 Anesthesia and who has completed 24 months or 2,400 hours of
13 licensed, active, advanced nursing practice in an initial role will be
14 authorized to practice as an APN-Anesthesia to the full scope of
15 practice for APNs-Anesthesia, without any requirement for
